# slimduet Function

The slimduet platform is a command center for global mobile service distribution based on GreenRoam's exclusive SIMoME® Thin SIM technology. Before going abroad, users purchase prepaid local mobile services by accessing the slimduet APP to obtain a local mobile bundled packages through it's OTA (over-the-air) download service. Upon reaching the destination, users will enjoy immediate connection to the local telecom services and remain online. Compared to traditional solutions, slimduet service will help travellers avoid an unpleasant bill shock while providing a hassle-free user experience.

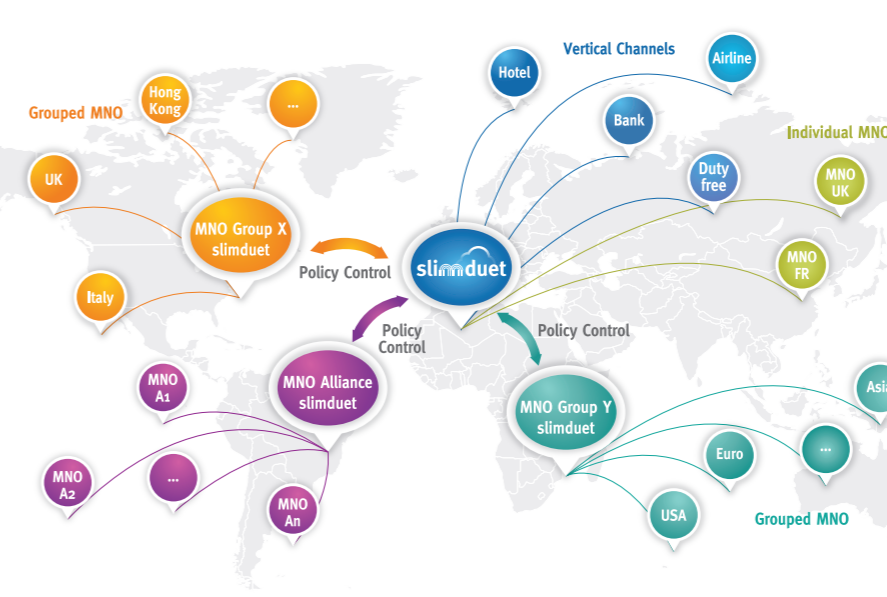

1. Install the slimduet SIM card.
2. Download the APP.
3. Activation.
4. A notification SMS with User ID and password will be sent to your mobile phone.
5. APP homepage → type User ID and password → enable slimduet service.
6. Select destination.
7. Choose service plan.
8. Service plan information.
9. Buy → Payment
10. Please wait for download.
